STATUS
Everything in this report is live

14
pages in MVP 1

+13
new pages in MVP 2

2
client revision rounds completed in MVP 2 (1008 and 1022)

15+
new dashboard features in MVP 2

How the two phases are split. MVP 1 is the first contract: built from 13 August, first live on 21 September, finished with the review rounds of 11 and 29 September (last delivery 2 October). MVP 2 is the work from 18 to 26 October: revision 1008, the Tier 1 brand pages, revision 1022 and the design upgrades that followed.

1. MVP 1 — the first version

Pages delivered

Area	Pages	Link

Dashboard (backend) in MVP 1

Content

- Posts with a rich text editor and images, for all News Room sections
- Highlights: pick which posts are featured
- Categories and tags
- Manufacturing pages and Solutions & Projects pages, built from protected templates
- Downloads library with filters
- Media library (images, PDFs, safe SVG icons)
- Pages editor: text and images of every section on the website

Site and team

- Inquiries inbox for contact form messages, with export
- Users and roles, login, forgot and reset password
- Settings (site details, email delivery, indexing)
- Global search and overview statistics
- SEO fields on every page and post; sitemap and robots
- Automatic deployment: every update goes live by itself

2. MVP 2 — what has been added

New pages

Page	What it is	Link
Tier 1 Brands collection	All brands in one place, with category tabs (All · Solar Modules · Solar Inverters · Battery Energy Storage)	/tier-1-brands
7 brand pages	One page per brand from a shared template: products, why the brand, quote form	JA Solar · Tongwei · Growatt · Deye · Solis · GoodWe · Hithium
Case Studies	List page in the News Room, plus a dedicated case study page layout	/news/case-studies
Privacy Policy	Full policy with contents list and summary	/privacy-policy
Cookie Policy	Your cookie policy text, with the cookie banner	/cookie-policy
Terms of Use	Full terms with contents list and summary	/terms

Pages rebuilt or redesigned

Page	What changed	Link

About Us	Rebuilt to your brief: new hero, Who we are with key numbers, six advantages that step through on scroll, sourcing routes with the Revamping highlight, project case, final enquiry band	/about/why-choose-cnx
Homepage	Real client success story, scroll-driven Why choose us, Project Inquiry card beside the FAQ, cleaner FAQ, Revamping card, Tier 1 brands button	/en
Solar Panels / BESS	New "Why Choose CNX?" section with your copy	/solar-panels
Product pages	Working floating buttons, new Manufacturing excellence layout, animated manufacturing workflow	BC Solar Panels
Contact	Factory (Wuxi) and office (Hong Kong) addresses; calendar date picker on forms	/contact
Whole site	Mobile fixes on every page, one consistent text and button style, new footer and menu	—

Client revisions completed

Revision 1008 (11 items) Done

- Product page image and text gap
- Dashboard tables scroll properly
- Events show event dates and location
- Footer matches the menu, editable
- Social links: any platform, show/hide
- Cookie banner and legal pages
- Empty FAQ card hidden
- Request Quote / Datasheet buttons work
- Contact form builder
- Show / hide any page
- Duplicate page titles fixed

Revision 1022 Done

- Mobile fixes on every page (one responsive site)
- Legal pages banner and Cookie Policy text
- Revamping card on the homepage
- "View all Tier 1 brands" button
- "View Case Study" opens a real case study
- Industry recognition hidden by default
- Project Inquiry Card beside the FAQs
- Footer and menu columns updated
- Large calendar on date fields
- About Us rebuilt; Solar Panels "Why Choose CNX?"
- Tier 1 category tabs; contact addresses

Item-by-item details with links are in the separate "Revision 1022" PDF.

---

3. MVP 1 and MVP 2 side by side

Area	MVP 1	MVP 2

Pages	14 pages	27 pages: + Tier 1 collection, 7 brand pages, Case Studies, 3 legal pages
About Us	Why Choose CNX page	Rebuilt to the client brief with scroll animation
Homepage	Full design	Real case study, scroll-driven Why choose us, inquiry card, cleaner FAQ
Product pages	Full template	Working buttons, new manufacturing sections and workflow animation
Tier 1 brands	Logos on the homepage	Collection page, 7 brand pages, brand manager in the dashboard
Case studies	Static story on the homepage	Case Studies section, case page layout, editable facts and results
Legal / privacy	—	Cookie banner, Privacy Policy, Cookie Policy, Terms
Enquiries	Contact form and inbox	Form builder, product quote forms that send, file upload, date picker
Site control	Pages editor, SEO	Show/hide pages, footer and social editor, optional section switches
Mobile	Responsive	Reworked on every page; consistent type and buttons

4. What we need from you

Item	Why
Real case studies (facts, results, photos, client quote)	The Case Studies page is ready but empty on the live site; the homepage "View Case Study" button appears as soon as one is published
Legal review of Privacy Policy and Terms	The text is a professional template; please check it with your legal team
Real phone number and social media links	The footer phone is still a placeholder
Tier 1 collection document and real brand product lists / datasheets	To finish the brand pages with real data
Revamping page content and approval	Revamping links show as grey text until the page is published
A real port / shipping photo	For "Global Logistics" in Why choose us (current photo is a stand-in)
Domain name	The site runs on an IP address; the domain and SSL are needed for launch
