REVISION 1022 · LIVE 26 OCTOBER 2026

Revision 1022: what changed and where to see it

Based on "website modification suggestions 1022", "CNX-About us Page" and the WeChat screenshots. Every item below is live.

WEBSITE
13.62.105.206/en

DASHBOARD
13.62.105.206/dashboard

> If a page still shows old text after this update, it is because that text was saved earlier in the dashboard. Open the page in Dashboard → **Pages** and click **Use default** to load the new version.

1. Items from the revision document

Mobile version — Done

Fixed on every page as one responsive website (no separate mobile template, so there is only one backend to edit). Footer is one column on phones with equal spacing, sections stack cleanly, product cards sit two per row, and nothing scrolls sideways.

Homepage (open on a phone)

1 · Legal pages banner — Done

The three legal pages now have a photo banner like the other pages, plus a new layout: contents list that follows your reading, an "At a glance" summary and a comfortable reading width. Privacy Policy and Terms were rewritten in full.

Privacy Policy · Cookie Policy · Terms of Use

2 · Cookie Policy text — Done

Your Cookie Policy text (22 October) is on the page word for word; lines starting with "-" show as bullet points.

Cookie Policy · Edit: Pages → Legal → Cookie Policy

4 · "ODM-Vertical solar modules" card → Revamping — Done

The homepage product card now shows Revamping.

Homepage

5 · "View all Tier 1 brands" button Done

Moved out of the brand frame: title on the left, gold button on the right, opening the Tier 1 Brands page.

Homepage Tier 1 Brands

6 · "View Case Study" button Done

New News Room section **Case Studies** with its own list page and case page (photo banner, project facts, story, results, client quote, more cases). The homepage client story now shows a real case study and its button opens it. The list page is in the News Room menu and the footer.

Case Studies · Add one: Dashboard → Posts → New → Section "Case Studies" → fill "Case study details"

The live site has no case study yet, so the list is empty and the homepage button is hidden until the first one is published.

7 · Industry recognition Done

Hidden by default on the homepage and About Us. Turn it back on with "Show on the website".

Edit: Pages → Homepage / About Us → Industry recognition

8 · FAQ contact card → Project Inquiry Card Done

The person card beside the FAQs is replaced by the Project Inquiry Card (title, three points, "Discuss Your Project" button). It stays in view beside long FAQ lists, on the homepage and every product page. The FAQ itself was also given more space.

Homepage FAQ Product page FAQ · Edit: Pages → Homepage → FAQ → Project inquiry card

9 · Footer and menu columns Done

Footer Manufacturing column: Solar Panels, BESS, Revamping. Solutions column and the menu list all 8 solution pages; pages not published yet show as grey text instead of broken links. About Us and Services are direct links while they have one page.

Visible on every page · Edit: Pages → Footer

18 · Date fields: large calendar Done

Every date field on the enquiry forms opens a large calendar with month/year jump, Today and Clear.

Contact page

About Us page (from "CNX-About us Page") Done

Rebuilt to the brief: taller hero with "Our promise" card; Who we are with four key numbers; six advantages that step 01 → 06 as you scroll, each with its photo and link; One Partner, Multiple Sourcing Routes with Revamping highlighted; project case; final enquiry band.

About Us · Edit: Pages → Why Choose CNX

Solar Panels and BESS: "Why Choose CNX?" Done

New section with your copy: heading and intro that stay in view, numbered list of the four reasons, two buttons. The BESS version is ready and hidden until you switch it on.

Solar Panels · Edit: Pages → Solar Panels / BESS → Why choose CNX

Tier 1 Brands: category tabs Done

Brands are grouped in one row of tabs: All Brands · Solar Modules · Solar Inverters · Battery Energy Storage, each with a count. Cards are cleaner (smaller logos, more space).

Tier 1 Brands

CNX brand page removed from display Done

Set to Draft, not deleted, so it can be published again any time.

Dashboard → Tier 1 Brands → CNX

Contact addresses Done

Factory (Wuxi) and Office (Hong Kong) addresses on the Contact page.

Contact · Edit: Pages → Contact → Addresses

2. Design improvements made during this revision

Where	What changed	Link
Whole site	One text scale for body copy (20 / 18 / 16 / 14 px), the same button style everywhere (18 px text, 20 px icons), clearer page titles, 16 px menu items	Homepage
Homepage · Client story	Shows a real case study: client quote, project facts and results, button to the case	Homepage
Homepage · Why choose us	The six reasons step through as you scroll, with a photo for each; quieter "Learn more" link	Homepage
Product pages · Manufacturing excellence	Same layout as the About Us advantages: numbered list beside a full-height photo	BC Solar Panels
Product pages · Workflow	The section holds in place while the steps slide across, and a gold line runs from step to step	BC Solar Panels
Product cards	"Learn more" buttons match the site button style	BESS
Case study sections	Readable on phones (text on a dark card under the photo)	About Us
Text wrapping	Short descriptions break with a slightly longer first line, so paragraphs look tidy	—

3. New pages in this revision

Page	Link
Case Studies (list)	http://13.62.105.206/en/news/case-studies
Case study page	Opens from the list once a case study is published (/en/news/<case-name>)
Privacy Policy (rebuilt)	http://13.62.105.206/en/privacy-policy
Cookie Policy (rebuilt)	http://13.62.105.206/en/cookie-policy
Terms of Use (rebuilt)	http://13.62.105.206/en/terms
About Us (rebuilt)	http://13.62.105.206/en/about/why-choose-cnx

4. Open items

Item	Status
Publish the first real case study	**Need content** Facts, results, photos and client quote
Tier 1 collection "complete design according to the document"	**Need document** The docx has not reached us yet
Brand pages: more colour and interaction	**Next**
Revamping page	**Next** Links show as grey text until it is published
Real photo for "Global Logistics"	**Need photo** A port or shipping photo
Legal review of Privacy Policy and Terms	**Your legal team**
